"GoodNews" Newsletter ~ Summer 2008 Edition

## Greetings from the Administrative Office!

By ~ Minister/Director Robin Morini

Hello Everyone!

Everyday I feel the peace of gratitude around and within me.

The UB phone is ringing, the person on the other end is filling out her application for ordination and writing her bio sketch. At the moment she was concerned as to whether or not she can really write about her spiritual path. She is a bit timid about sharing her experiences, feeling as though she may be judged as weird, ridiculous, or crazy. She and I chat for awhile until she realizes she is comfortable, she has found a place of non-judgment and unconditional love through Universal Brotherhood Movement, Inc.!

As the conversation con-

tinued, this future UB-er has freely shared her extraordinary story with me. My suggestion to her: to write her bio sketch with the same freedom she had related her story to me. By the time this woman was ready to hang up the phone she was beaming with hope and confidence, ready to share her story and her service with the world!

Once the phone conversation had ended, I felt continuous gratitude for the vision Rick and Jeni Prigmore shared with the world! I thought of all the applications that come through the office each week, the free thinkers who have already dedicated their lives to the Brotherhood of man and who now want to take the next

step through ordination with Universal Brotherhood Movement, Inc.

Everyday I feel the peace of gratitude as seekers find the joy of their ministry through the vision of Universal Brotherhood Movement, Inc.

With Love and  
Gratitude,

Robin

*STAGES IN  
AWAKENING  
FOR A BUTTERFLY*  
~ GILL SCHWARTZ ~

The rites of Transformation call for the passing

away of what was to make place for what is to be.

What is death and decay to the caterpillar, is a nurturing womb for the butterfly.

### *THE EGG*

*(A SPORE-SEED  
OF POSSIBILITY)*

I am a tiny sea of aliveness longing to take form. In ritual gathering, I formulate the strands of possibilities bequeathed me to become a creature being.

*UNIVERSAL BROTHERHOOD*  
*MISSION AND*  
*VISION STATEMENT*

It shall be the mission of Universal Brotherhood Movement, Inc to recognize independent ministries upon request, through a process, including a face-to-face, of sacred ordination ceremony. Each applicant shall be considered non-judgmentally with unconditional love and be asked to affirm his or her recognition of the oneness of all life.

Verbal affirmation of their personal ministry is requested of each applicant who states: "I hereby dedicate my life to the Brotherhood of mankind." It shall also be the mission of Universal Brotherhood Movement, Inc. to recognize the life-ministry of the applicant by awarding the degree of Bachelor of Divinity.

It shall further be the mission of the Universal Brotherhood Movement, Inc. to provide an educational resource for further spiritual development of the minister upon request. The vehicle to provide such support shall be a division called, Universal Brotherhood University.

Over the eons, restless visionaries have searched the know parameters of understanding, seeking a clearer delineation of Truth, for themselves primarily, but Truth often adopted by non solicited followers. Divinely guided in their search, the founders became the vessels through which Spirit unfolded a new paradigm of service to be designated "Universal (*for Everyone*)-Brotherhood (*the international term for siblings*)-Movement (*active service, not theory only*) Incorporated (*a not-for-profit-legal entity*).

The vision revealed is expressed through the brotherhood of mankind as "non-judgmental and unconditional love."

May the vision ever remain pure.

## ~ GREATER THAN ME ~

*Song Lyrics ~ Armand*

When I look around at all the things that are happening simultaneously, I get the sense of an energy, that made everything great and small, from a tiny seed to a redwood tree, from an act of love that formed us all.

And I know there's something greater than me that keeps it all flowing so perfectly. When all of our chaos becomes harmony I know, yes I know that there's something that's greater than me.

Bumblebees and gravity, mysteries to me from the stars above to the deepest sea there's a reason or me to believe. No, not with my head, no not with my eyes, but with my heart that connects with an all knowing mind. I feel like an astronaut turning through space and through time.

When I look around at all the things that are happening simultaneously I realize that the people are the valuable resource of all.

And I know that there's something greater than me that keeps it all flowing so perfectly. When all of our chaos becomes harmony I know, yes, I know that there's something greater than me, greater than me.
